As the second of the dark ages recedes, enlightenment spills over us poets. The light of literacy, compassion, and open mindedness flows into the recesses of our famished souls. It is in this second renaissance that we gather at the Bowery Poetry Club to celebrate this new age with the blessing of highly conscious being, Bob Holman, we celebrate!

Over 150 poets, writers, and artists of all ilk will illuminate you with 10 solid hours of celebration!

Join us for our **FOURTEENTH** celebration and see why our alternative New Year's Day spoken word/performance extravaganza has been a critic's choice for Time Out as well as on the Village Voice short list!

See what the buzz is all about!!
